### New Meeting Location

Anyone who attended our May meeting will immediately understand why we're going to try a different venue. Our customary pizza joint booked 4 other groups that night and we were not happy with sharing the big front room with a kids' team season-end party. We have been invited to use the meeting space at First Team Real Estate, 10072 Adams (at Brookhurst), Huntington Beach, in the Stater Bros shopping center. I will arrive with Costco pizzas; there is water & coffee on site & a refrigerator if you want to bring other beverages. There's a big meeting table (it's actually a ping pong table) with numerous chairs & a big TV. The room can easily accommodate more people than usual at the pizza joint, so c'mon down!

### Katie Martin Tribute & Hobie Hawk 50<sup>th</sup> Anniversary Fly-In

June 1 at Torrey Pines there will be a fly-in to honor Katie Martin and to celebrate the 50<sup>th</sup> anniversary of the Hobie Hawk. Katie & Bob Martin ran the model glider company Bob Martin RC Models, which made the SR7 Coyote, Katie II, Super Gryphon, DuraLene fuselages, and the Hobie Hawk. We lost Katie far too soon years ago, but Bob is still kicking and should be there. After the hobby business, Bob was involved with the Reno Air Races as a pylon judge.

**Victoria School Spring Fling**

On May 17, HSS again displayed at Victoria School's Spring Fling event. We had two flight sims, several models displayed, raffled off a small biplane kit, made foam plate gliders, and talked to numerous kids and parents. Most knew about us, as this school is only about ¼ mile south of the field. David Tecker flew a small 3D model and amazed the audience. If you are able to take a weekday evening off, please try to be there next year.

## The TRUST Test and FAA Registration

TRUST is The Recreational UAS Safety Test. It provides education and testing for recreational flyers on important safety and regulatory information. If you fly your drone recreationally under the [Exception for Recreational Flyers](#) you must pass the test before you fly. To take the test, go to <http://trust.modelaircraft.org>. This is the AMA Site. Take the test (Don't worry, it is fail proof) then obtain your "Completion Certificate."

All recreational flyers must pass this aeronautical knowledge and safety test and provide proof of test passage (the TRUST completion certificate) to the FAA or law enforcement upon request.

Go to <http://faadronezone.faa.gov> and create an account for your FAA Registration. Apply for "I fly under The Exception For Recreational Flyers". They will issue you an FAA registration number that must be affixed to the outside of all of your radio control model aircraft. The charge is \$3 for three years, for all of your R/C aircraft.

## HSS Club Decals

### Invitation To Members For Contributions To The Plane Rap Newsletter

Your editor would love to hear from club members. If there is anything you would like to share with the rest of us, I would like you to send it to me. I will add it to the next newsletter. My favorite things to publish are items sent in by members!! These can be anything like reviews of your plane or equipment, links to good videos, links to articles, and things you have built or created. Bad spelling and/or grammar gladly accepted. Anything from a picture with a caption to a full blown build/review article is good. Letters-to-the-Editor are always welcome as well. Tell us what you think. Please help make the newsletter and website more interesting with your submissions. Embarrassing pictures/videos are the best. I look forward to hearing from you.

Mike Costello - Plane Rap Editor - [mikeftre@gmail.com](mailto:mikeftre@gmail.com).

### Photos of Your Planes

John Rittenhouse has become the club photographer, with Mike Costello as a backup. This is your newsletter, so if you want to see your models featured, or photos of something that interests you, please send to the newsletter editor.

**AirPixel Technologies/FrSky Distributor**

I just wanted to reach out on behalf of FrSky, as we are working directly with the manufacturer to do some community outreach to aviation clubs that are close to us here in Southern California, as provided by the AMA Club list. If anyone who happens to be a part of your club or organization is looking to purchase any number of **FrSky radios, receivers, gimbals, or other FrSky products**, we would love to assist in fulfilling these needs. During this outreach, we will be **lowering our prices to assist local clubs** in obtaining the necessary gear to get members flying as soon as possible. If you or anyone in your club is looking for products of this variety to assist in your RC aspirations, please do not hesitate to contact us via email or at our office phone number, which I will attach below, where we can answer questions regarding sales and warranty questions, and assist with any and all FrSky product related technical difficulties that you or your club members might run into.

Thanks so much for keeping the hobby alive and I look forward to hearing from you! -Brock
